

# Sport Funding Evaluation Autumn 2016-17

In the autumn 2016, the school sports premium funding budget was calculated at £11,000. The first instalment received for the 2016-17 academic year with the continued purpose of the premium remaining the same, *“to be used to fund additional and sustainable improvements to the provision of PE and sport, for the benefit of primary-aged pupils, in the 2016 to 2017 academic year, to encourage the development of healthy, active lifestyles.”*

Allocations for the academic year 2016/17 will be calculated in the same way as last year. They are calculated using the number of pupils in years 1 to 6, as recorded in the January 2016 census and schools with 17 or more pupils receive £8,000 plus £5 per pupil.

Through continued on-going evaluation and staff feedback during 2015-16, amendments to the delivery, support and specialist teaching have been made and implemented for the 2016-17 academic year. A greater focus on the provision provided for pupils in EYFS and those in KS1 as it we feel as a school these areas specifically require additional input through specialist delivery and through continued professional development. Further support is continuing to focus on girls in sport as this is an area of development in school. Greater opportunities to for ‘Intra-School’ sports competitions to build in resilience and determination has also been highlighted along with opportunities to observe fellow colleagues and coaches to up skill teachers.

New KS1 materials will support the KS1 staff with the development and delivery of fundamental movement skills which will impact greatly upon KS2. New assessment focuses for KS1 and KS2 will be shared implemented in the Spring term to ensure accurate assessment of pupils’ skill development and progress is collected in order to allow teachers to develop the curriculum accordingly.

The school remains excited at the prospect of continued developments delivered by *‘excellence through PE and Sport’* and all of the additional sporting and academic achievements this will continue to underpin. This additional funding further supports and develops the excellent practise that currently goes on in school. Teachers remained honest in their self-assessment of their teaching skills and the subsequent evaluations of the expertise provided through the sports funding. They have positively embraced new ideas, resources and used their developed knowledge and new skills to support their teaching.

Throughout the summer term, resources were purchased and distributed where appropriate to ensure high quality delivery in all areas of PE. Network meetings took place to enable the school to further develop links with external clubs. Specialist cricket coaching was delivered in Y5 and Y6 classes, whilst a tennis club was established. At present, the school liaises closely with Preston Harriers, City of Preston Gymnastics Club, Preston City Trampolining Club, Preston Swimming Club, Garstang Hockey Club, Preston Pride Basketball Club, Preston Netball, Simpli-Tennis, resulting in more children are attending external sports clubs.

As a result of our audit of skills and evaluations in the summer term, Queen’s Drive opted for the following areas to be addressed over the coming year: Gymnastics, Tennis, OAA, Netball, Cricket, Golf, Basketball, Climbing, Rugby, Fundamental Movement Skills and Swimming. These sports will be carefully timetabled to ensure the children of Queen’s Drive and the teachers benefit from the coaching and professional development support on offer.

Gymnastics provision has always been provided by coaches from the City of Preston Gym Club in previous years. However, this autumn after much harrising and little response, the gymnastics delivery has not been able to be implemented. Further discussions are currently taking place with other coaches to try and organise some gymnastics delivery for the spring term. Additionally, the fantastic support we received from the coaches at Springfield's in previous years could no longer be continued as the club does not now support the Preston area due to a club venue change (Fylde). As a result there will be a huge focus on implementing support provided by the sports premium funding in the spring and summer terms for all pupils.

#### Spring provision:

- Tennis- Y3 pupils
- Tag Rugby- Y4 pupils
- Cricket- Y5 pupils
- Basketball- Y6 pupils
- Football- KS1
- Fundamental Movement Skills- Y1/2/3
- Climbing- KS2

#### Impact on Sporting provision at Queen's Drive Primary School

Whilst remaining an active member of the local primary school sports association (PPSS), the school has continued to take part in a wide range of inter-school sporting competitions with a great deal of success. The school collected over 20 trophies last year for sporting competitions and claimed the prestigious title of 'Primary School of Year' at the Preston Sports Awards. The continued support from the sports premium funding has enabled the school to carry on accessing additional specialist services which will enable us to reach an even wider range of pupils for intra and inter-school competitions and further develop the children's fundamental movement skills at KS1 and skill development through KS2. Since September alone, over 50 children have represented the school at one or more inter-school sporting competitions in the Preston area. These events cover sports such as athletics, hockey, boys and girls football, netball and swimming. The range of competitors are aged from as young as 5 years old through to 11 years of age.
